# (EL) Joint EU Intelligence School (JEIS)

(established in November 2018)

For Public Release

## PROJECT DESCRIPTION

EUGS aims at installing in Member States a “unity of purpose” that will translate into “unity in action”. The Hellenic National Defence General Staff – HNDGS, in alignment with the LoA of CSDP and the goals of EUGS, focuses on enhancing cooperation between member states and organizations on the intelligence field. Commanders / Heads of military / civil missions and operations are relying on skilled and alerted intelligence officers capable to produce accurate, timely and relevant intelligence products for successful missions and operations. JEIS intends to collaborate with member states, NATO CoEs, Intelligence and Security Services as well, in order to provide education on intelligence disciplines and other intelligence-related fields such as Technical exploitation, Biometrics etc, to EU member states intelligence officers. SME’s may collaborate within JEIS body, adapting courses on member states needs and EU’s institutions needs as well. JEIS as an EU MS body/ institution may provide intelligence education / training to non-NATO EU MS.
